

## B-ware™ Mobile App

The **B-ware™ Mobile App** is a crucial tool in operating your B-ware Monitoring System. The app will connect your smartphone or tablet to your Smart Hive Monitors with reliable Bluetooth LE communications and give you access to the monitor data. After uploading the monitor data to your smartphone, the app can upload the same data to the Internet, if it is within cell tower range or do so on a delayed basis once it enters cell tower range. This multifunctional tool has the following features:

- **Live Data:** See the real-time weight of your hive and ambient temperature.
- **View Data:** View your weight and temperature data on interactive graphs after uploading your monitor data.
- **Read New Data:** Upload all new weight and temperature data since the last reading.
- **Upload Data:** Upload your monitor data to the Internet so that it is viewable through your favorite browser.
- **Set GPS Location:** Set the GPS location of your monitored hives.
- **Alerts:** Set Alarm upper and lower limits.
