

HM-6H (Heavy) WiFi Smart Hive Monitor

The new HM-6H WiFi Smart Hive Monitor is similar to the HM-6 but with a much higher weight capacity, 350kg (770lbs) for quickly filling beehives. The HM-6H measures and stores accurate weight and temperature readings every hour just like the HM-5 but then also can transmit the data via WiFi. These readings are precise and can measure even very slight changes in beehive weight. Generates the most accurate data in the industry – and Solutionbee devices are made to last for years.

The HM-6H WiFi Advantage:

- Uses WiFi for backyard and remote uploads where there is WiFi coverage.
- Use with the Solutionbee HiveHub™ for remote locations without WiFi
- Easy and fast connection to the Internet Cloud for insightful data analysis.
- Save travel time to your beeyards by remotely monitoring your hives.

The HM-6H follows the Solutionbee tradition of long battery life and technical excellence.

Model	
HM-6H (Heavy)	
Operating Temperature Range	15F to 140F (-10C to 60C)*
Dimensions	22" x 16.5" x 2.5" (56cm x 42cm x 6cm) = 10-frame size
Max. Weight	770 lbs. (350kg)
Battery Life	min. 3 years (replaceable)
Communication	NFC (iPhone 7 and above, Android 6 and above) Bluetooth 4.2 (BLE) WiFi (802.11 b/g/n)

*The equipment will work normally within its temperature operating range. At extreme temperatures outside of this range, the equipment will purposefully shut down to avoid excess energy usage and will start operating again when within operating temperature range.

Solutionbee delivers the highest quality beehive monitoring system in the industry with the most value. Reliable, technical and user-friendly solutions are Solutionbee's specialty.

Solutionbee's dedicated customer technical support assists distributors and end-users to set-up and maintain the hive monitoring equipment.
